HANDLES

Whether it's due to limited mobility or simply the desire to age gracefully in your home, we believe your kitchen should still be beautiful and functional. That is why we, Glenwood Kitchen, offer a line of accessible cabinetry that feature a reduced counter height and a modified toe kick space that can accommodate the use of a wheelchair.

WHO WE ARE

WE AREN'T YOUR ORDINARY CABINET SHOP

- We believe in the strength of our families, our small town roots and this place we call home.
- We believe great work is really art wearing a clever disguise.
- We believe in repeat customers.
- We believe in sticking together through thick and thin.
- We believe our work and our products are reflections of who we are and who we aspire to be.
- We believe humility is the cornerstone of character. And that character of a person or product always shines through.
- We believe in playing hockey Friday afternoons.
- We believe in longevity. We are not interested in being a "one hit wonder".

Adding a thick end panel will dress up any run of cabinets.

Floating shelves are functional and aesthetically pleasing. They can be added to any room. They are available in various lengths and in a wide variety of wood species and colors.

Small space ...
big impact!

Another good
example of a
beautiful and clean
line modern design.

NON-NEGOTIABLES

- We will never have voicemail during business hours.
- We will never work more than one shift.
- We will never use hardware or products that we would not want in our own homes.
- We will always do our best to honor our lead time.
- We will never do one size fits all.

Floating cabinets
gives the effect
of enlarging any
room and adds a
modern flair.

Marrying cabinetry
and structural design
can be challenging
but, when done
right, the result is
breathtaking.
